

private ownership at the time the line of said railroad was definitely fixed in accordance with the Act. Further, Mr. Lake's settlement on the subject land originated prior to passage of the Act, and the patent, upon issuance, related back to the date of settlement. Therefore, the 400-foot right-of-way authorized by the Act did not attach to the subject lands.

The Bureau of Land Management has determined that the United States has no claim to or interest in the land described and issuance of the proposed recordable disclaimer of interest would remove a cloud on the title to the land.
